

Northwood Conservation Commission Site Walk, June 3, 2013

Members Attending:

Chairman Stephen Roy, Vice Chairman Steve Hampl, Wini Young, and Thomas Chase.

Also in attendance: Board Administrator Linda Smith, Board Secretary Lisa Fellows-Weaver

CBNA Students:

Ms. Carley Beck and Mr. Connor Bell

Ms. Young scheduled this walk to view possible areas to develop as future trails leading from the Northwood Recreational Fields and through the Guptill Lamprey Pasture.

Ms. Young showed examples of plants, various trees, and some evidence of turkeys and deer was found before the stream crossing. Other areas were wet and appeared to have been accessed recently by a four-wheeler. The large boulder area was an enormous site that allowed for a brief rest.

General consensus during the walk was that the area is an asset to the town and there could be nature trails made in and around the area that would be utilized and enjoyed.

Overall, the walk took about two hours.

Respectfully submitted,

Lisa Fellows-Weaver
Board Secretary
