

Safety Facility Meeting Notes

11 Oct 2023 @ 6 PM

Committee: Kurt Straube, Tom Chase, Michael Moore, Kevin Madison, Hal Kreider, Dave Copeland

Consultants: Town Administrator Neil Irvine, Fire Chief Mark Tetreault

Decided we do not need additional information / public input to start our deliberations as to which of the three main scenarios we should recommend.

Listed the pros and cons of all the options

Concluded that option #3 – Expand Narrows Station and build an East Sub Station and a New Police Facility – should be eliminated from further consideration

This option would be the most costly

Expensive to renovate old building

Would need to replace well and septic

Spend a lot of money and still be in an old building that will not last as long as a new facility

Info needed for next meeting:

Response time evaluations – Mark, Neil

Time of call to time of arrival

Time of wheels rolling to time of arrival

Distance traveled evaluations and resulting impact on insurance rates – Kevin, Mark, Neil

Tax impact charts

Facility Costs vs. Bond Amount vs. Property's Assessed Value - Neil

Land bid process - Neil

Other assignments:

Reconcile space requirements – Mark, Tom Morgan, Neil, Glen

Next meeting: Wednesday, 25 Oct @ 6 PM
