

## Forest Management presentation and hike on the School Lot Town Forest

Saturday, October 5 from 10:00AM to Noon

Meet at Lucas Pond Public Access Facility (Woodman Park) on  
Lucas Pond Road

The Northwood Conservation Commission invites you to a forest management presentation and hike on the School Lot Town Forest (Map 244 Lot 42) with Northwood Town Forester, Bryan Comeau of Dalton Mountain Forestry, to learn about the recent timber harvest on the lot and the advantages of managing forests in general. Here's a chance to learn about managing your woodlot for sustainable forest products and wildlife habitat while maintaining healthy soil and clean water. Or just come for a walk to see town land and enjoy the outdoors!

This is an outdoor event with a moderate amount of hiking.

Please note that the town's current Forest Management Plan can be found on the Town of Northwood website.
